Warhorse...

Black wings - The essence of life

Ride upon the ashes of this land

Violence - Accelerate command

Trapped between the sun and burning sand

Combat - Eclipse the sky

Race with the fury of the Damned

Warhorse - The poisoned seed

Sown by the rulers of this land

Warhorse...

Warhorse - The deathbird dives

Can you see the fire in the sky

Warhorse - The deathbird dives

Can you see his silver wings tonight

Blaster - The ultimate pain

Strapped to steel and dive to harvest gain

Cruelty - Artillery command

Wrapped in dust you search the ruined land

Burning - Target locked

Fire with the force of insane men

Warhorse - The nuclear thorn

Bastard born to conquer and to scorn

Warhorse...

Black wings - The essence of life

Ride upon the ashes of this land

Warheads - Eclipse the sky

Race the fury of the Damned

Violence - The poisoned seed

Sown by the rulers of this land

Warhorse - The nuclear thorn

Bastard born to conquer and to scorn

Black wings - The essence of life

Ride upon the ashes of this land
