"Bleeding Purposely"

One second it all
To lose everything
Bleeding purposely
Bleeding in my sleep
Bleeding profusely
For I am your enemy
What shit you telling me
Living intravenously
What shit you telling me
Is this all you want to by
This is not how I want to live my life
You are the reason for my bloody soul
I fade into a river on fire and of death
Bleeding my day bleeding my night
I want back only my life
