I am only one

This is my life, I am my master

I am only one

And you can't come, to inside my self

For you is closed

This my self, this is my world

My territory

Die you alien die

Die you burglar you die

You burglary my soul

Die you liar you die

Die you fucker you die

Die you fucker you die

You, you and me

You, in real fight

You, you whit me

You, you lost

Troubles off
