

Nocturnal Devotion "Second Place For Nature"

Visit "[Second Place For Nature](#)" on MotoLyrics.com

It's like a bad dream every day to see
The people, don't have a soul

I am feel so sorry, every day to see
They have master, don't have they life

This is a real world, I can't stop it
I hate to see on the death eyes
The people are havn, t soul
They vote wrong way

This a time of religious monsters
This a time of religious servants
Nature pushed to second place

This a time of religious servants
Nature pushed to second place

I want kill
I want kill, stupid time

This is a real world, I can't stop it
This is a real world, I hate live here
