I wish this air could clean my chest
I needed a quiet day
I take a walk outside my house
a freezy haze is freezing my head

And I still myself

I saw my hands into the ground
the rain is hard behind my door
the rain is covering my eyes
I wish it could clean my sight
And I still myself
So I still myself

Really needed a quiet day
really needed to hear my voice

I wish this air could clean my chest
I wish the rain could clean my sight
