

## Nocturne

### "The Science Of Horror"

Visit "[The Science Of Horror](#)" on MotoLyrics.com

FEAR!!!  
OF THE UNKNOWN!!!  
FEAR!!!  
OF THE UNCERTAIN!!!  
Haunted, Plagued by horror from the beyond  
Hideous Forms, emanating figure, that lurks in the black  
Nightmare, visios from the dephts of ypur mind  
Lost... left without way... standing, standing alone

Fallen, spiraling down, erratically, a labyrinth of time  
Silence, tongues in this realm. Speechless, words that  
have no sound

[Chorus]  
Burning, at the stake like a witch  
Drowning, oh my god. I can't get a breath  
Torn apart, on the rack, no one will help  
Sharp teeth, dig deep in the skin  
Falling, smacking the ground, shattered to bits  
Fear not my blade

Hunting for the next one  
I search for the scent  
Your life my essence

I am the conqueror  
I am the one you fear  
I am atrocity  
Unbelievable sickness  
In my mind

Don't worry. I will keep you  
Forever, and never  
I, have a place  
Safe, No one will hurt you here

You can't fathom these things in your mind  
Feeble minded  
I am a higher grade, sentient creature  
You will never know  
What I'm made of

It is imperative that I kill  
Otherwisetheymaysimply,neverunderstandme  
I will show them
