The rot in the abysmal fire...  
To go to heaven...  
Alive and paralyzed in the our paradise.  
Paralyzed with fear, we trust mysticism,  
mind in agony: deception.  
We die of fright to fear to die.

Timeless is deadly silence  
of human life that will not die.

Why in this silence must we die?  
Why is it so timeless our time?

Paralyzed with fear, we trust mysticism,  
mind in agony: deception.  
We die of fright to fear to die.

It's easy talking about doing something,  
but it's another thing to do it.  
Death is a part of life, it doesn't care.  
So never hope, nevermind, never...once again!
