Forever, Forever

Let me be the one you love forever  
We could make it work out fine together  
Say you love just only me  
My heart is yours to keep  
Let me hold you in my arms  
Forever forever  
I just had to let you know I love you  
I could never place no one above you  
You were meant for only me  
My heart is yours to keep  
You and me, me and you

Forever forever  
Let me be the only one forever

My heart would sing if we could be together  
You were meant for only me  
My heart is yours to keep  
Let me hold you in my arms  
Forever forever

Say you love just only me  
My heart is yours to keep  
Let me hold you in my arms  
Forever forever  
Forever forever
