"Oh Lord"

Oh Lord! Is that you by the side of the road?
Still preaching the words of your code
As you jump up and down like a toad
You tried but you can't shoot your load

Oh Lord! Is that you with your head in the sand?
In a world that you don't understand
Have you ruined your best laid plans
Could they just turn to shit in your hands

Oh Lord! Is that you who is fading away?
Like the truth in the lies that they say
And the hair on your hands turns gray
You remind me of yesterday
