And the moon will always smile  
In my dreams, in my dreams  
And the sun will always rise  
In my dreams, in my dreams

Don't answer for a reason  
Don't answer for a chance  
We see a little promise  
And found it in the crowd

Remember all the feeling  
Remember all the love  
It's burning like a fire  
We pray each other a love [a love, a love]

In my dreams

Don't answer for a reason  
Don't answer for a chance  
We see a little promise  
And found it in the crowd

Remember all the feeling  
Remember all the love  
It's burning like a fire  
We pray each other a love [a love, a love]

In my dreams  
In my dreams
