Verse 1

Faded glow, our glory in shadows.
Swear me your world before the Grimm takes mine.
My fuse blows, when secrets dance across your smile,
Across your smile.

Bridge

But, when the yelling is mute and your kiss lights our
love,
We're born again.
When the yelling is mute and your kiss lights our love,
We're born again.
And again.

Chorus

Give me eternal love.
That's all I'm craving from (you) x2
Give me a timeless love.
Before we crash into our headstones
Memento Mori

Verse 2

Lonely kisses will empty our love (oh no).
Rainbow chasing pays goldless rewards (we'll lose).
I see red, when you drive me up the wall.
You drive me up the wall.

Bridge

But, when the yelling is mute and your kiss lights our
love,
We're born again.
When the yelling is mute and your kiss lights our love,
We're born again.
And again.

Chorus

Give me eternal love.
That's all I'm craving from (you) x2
Give me a timeless love.
Before we crash into our headstones
Memento Mori

Let honest words dance (across your smile) x2
