fighting with gloves
now we're the ones a hundred times fuckeder
hitting above the belt
now we're the ones a hundred times fuckeder
citing the facts
now we're the ones a hundred times fuckeder
exposing all the lies
now we're the ones a hundred times fuckeder

we get what we fucking deserve
bringing raised fists to a knife fight
you'd think developed minds could learn
not to give benefit of doubt
you wouldn't trust a hungry animal
around your newborn, would you?

sharing the wealth
now we're the ones a hundred times fuckeder
taking the high road

now we're the ones a hundred times fuckeder
showing respect
now we're the ones a hundred times fuckeder
giving a shit
now we're the ones a hundred times fuckeder

did anyone really expect
to win a race already fixed
the spoils doled out in advance
the appointed already picked
all allegations of fraud
categorically dismissed as absurd
