Birds are dumb cause small bird brains  
But so are kids and old people  
Some birds talk, most others sing  
I don't see you eating a talking bird

Pigs smell bad and roll in poo  
But so do kids and elderly  
I don't see you chop off an old man's feet  
Put them in a mason jar and pickle them

No chowder for you, cause clams have feelings too  
Actually they don't have central nervousness  
No Manhattan style, clams have the right to smile  
Come to think about it they don't have a face

They have no face, no place for ears  
There's no clam eyes to cry clam tears  
No spinal cord, they must get bored  
Might as well just put them out of misery

I don't believe it's selfish to eat defenceless shellfish  
No chowder for you!! clams have feelings too  
It could happen to you clams have feelings too  
I don't think they do, clams have feelings too
