Birds are dumb
with small bird brains
but so are are kids and old people
some birds talk
most others sing
i don't see you eat a talkin bird
pigs smell bad
they roll in poo
but so do kids and edlery
i don't see you chop off an old man's feet
put them in a mason jar and pickle them
no chowder for you
clams have feelings too
actully they don't have centrle nervousness
no man _____ style
clams have the right to smile
come to think about they don't have a face
they have no face
no place for ears
no clam eyes
to cry clam tears
no spinle cored
they must get bored
might as well just put 'em out of missery

i don't belive it's selfish
to eat deffensless shelfish
no chowder for you
clams have feelings too
it could happen to you
clams have feelings too
(i don't think they do)
clams have feelings too
