truth
now like a viral infection
the GOP developed a vaccine
get your shot from your local christian reading room
make sure your clothes are blue and neoprene

windows closed,
televisions on,
talk show radio
where everyone agrees
the plague is here,
but exposure is avoidable
turn up mind, relinguish control

## question!

citizens questioning leader don't want to set a precedent we're going ask all the questions like what kind of patriot are you? when did you check out Trotsky? what is your major malfunction?!
