I don't believe in God I believe in Goddess
I don't believe in prayer but believe in worship
I don't believe in destiny but I can feel luck
I don't believe in people 'cause they don't give a fuck

I kinda like the..since I kinda dig lot
I kinda look offended cause is in the dirt dog
I like that if the revolution had a design
I don't believe in anything you..

I don't believe in God I believe in Goddess
I don't believe in prayer but believe in worship
I don't believe in destiny but I can feel luck
I don't believe in people 'cause they don't give a fuck

I don't believe infinity..
I don't wanna..like I was transcend
I'm good at do everything I want it right here
I wanna love with you and I wanna sleep here

Yeah
