"Open Your Eyes"

At first I thought you were dead
But now I see that you're wanted dead
Something I did, and they say yeah yeah
Blank gen, blank gen(eration)

Open your eyes
Open your eyes
Can't you see what's going on
Open your eyes
Open your eyes
Can't you see what's going wrong
Open your eyes
Well they tell you lies and you sing along
Open your eyes
Well they tell you lies and you sing along

Something about destruction
Television corruption
Yeah you've been blind

You better make up your mind

Open your eyes
Open your eyes
Can't you see what's going on
Open your eyes
Open your eyes
Can't you see what's going wrong
Open your eyes
Well they tell you lies and you sing along
Open your eyes
I don't know the words to this stupid fucking song

Open your eyes.... ahhhh
Open your eyes
