There's something wrong with mass consumption
Why do we want what we don't need
Alcohol burnt clean asphalt methamphetamin
Will make it seem alright It's gonna make it seem
alright
Living in the hunger underground
Some people say I got a problem with authority so
what if I do man it beats relinquished control
Philthy Phil Philantropist
You were take when you should be given away
More than we cannot repay
There's something grand about being nothing
There's something lame about being grand
Alcohol squirtin gun don't want no holidays in these
That's me not bein you, that's just me not bein you
Either part of the solution or the problem
Can there not be a middle ground for just the anybody
Replace superman with joe the ordinary
Philthy Phil Philanderer
You've takedn when you shoulda give away
Filthy Phil you gave to us
More than we cannot repay
