I went to the airport, but I missed my flight  
I had to get out of this town tonight  
Then a lady in black caught my attention  
I couldn't figure out what was her intention

She told me about a flight that was leaving tonight  
She could get me a seat and the price was right  
She tugged on my pants so I jumped at the chance  
I had no idea what was in store for me

She welcomed me aboard then she strapped me to my seat  
She tied my hands and legs down and made me kiss her feet  
She whipped me and she slapped me, and gagged me when I begged  
One things for sure I'll never fly S&M airlines again

The stewardess in leather came walking down the aisle  
She put nipple clamps on me with a sadistic smile  
The pain was so bad I had tears in my eyes  
Then I looked up and there were two gartered thighs

Her ass was inches from me when she told me to lick  
Before I could do anything she slapped my dick  
So I followed her commands, my aim was to please  
I spent the rest of the flight on my knees

The plane finally landed by the end of the night  
I had to get off of this torture flight  
I asked her to release me, then she bit my lip  
She said the ticket that you bought, it was round trip.

I'll never fly S&M airlines again  
I'll never fly S&M airlines again  
I'll never fly S&M airlines again  
I'll never fly S&M airlines again
