### "Deception"

How can we sit here in silence?  
There's so much more to say  
Does this void have licence?  
A right to be this way

These facts are no illusion  
They lead on lies alone  
Fight for a conclusion  
To see how we have grown

Battle on for years to come  
Our fighting then, will come undone  
We fight on for our beliefs  
In the end, a great relief

How can you be so deceitful?  
To me it seemed so peaceful  
But now it's gone, it's all wrong  
All I've got's this songâ€¦

The fear it comes and goes  
It's getting hard to shake  
I feel now that I know  
It was a huge mistakeâ€¦
