You realize...what you have done  
How easy it went away  
I am alone... and I'll be the same  
It's my life I wait for  
Hurray for you... you weigh  
Your life down all the way  
You stand behind, you wait inside... I know

Suffer in my pride, just stay away  
You're in my face, you won't win  
You're in my mind, lost inside, you're in my blood

I am the one... and I'm too blame  
Too many times before you  
The time has come, mistakes were made  
There is no wasted time

Suffer in my pride just stay away  
You're in my face, you won't win  
You're in my mind, lost inside  
You're in my yesterday

Get out get out  
I want you to stay  
Get out get out  
Just walk away

You realize what you have done  
Ain't easy to walk away

Suffer in my pride, just stay away  
You're in my face, you won't win  
You're in my mind, lost inside  
You're in my yesterday

Wasted away...in my mind  
You're in my yesterday  
Suffer in my pride, lost inside  
You're in my yesterday
