Where did my brave side go
It was beaten by thieves
Who snatched with no hands
Said they promised to
Take us to enchanted lands
And I hope you understand
Just like falling leaves
From the sky we'd never touch the ground
So why dare to shovel dreams that we have found
I'm tired of being gagged and bound

The hierarchy, the hierarchy you search for
The hierarchy, the hierarchy you search for
The hierarchy, the hierarchy we search for
And you want more for, for

There was this taste of bitter fruit
And your tongue was ready
You thought your sense astute
You saw us laugh while we
Were crying inside
Spittin blood just like a mudslide

It's time to chance
Chance the dance you never
Thought you could do
My arms are open wide
A great bayou
And I hope that so are you

See when this hierarchy, the hierarchy you search for
The hierarchy, the hierarchy you search for
The hierarchy it's monarchy's going to fall
And you want more, and you want more for

Before you get bored
Look what you've done now
Go to be humble
My child will never die

Where have you been
The child with the golden wings

I heard you sing
The child with those goddamn wings
They slaughtered the skeletons from his soul

I will never fall in love again
This time I speak the truth
A broken heart is hard to bear
So I will conclude
Since I can't have you
I will never fall in love again

I wrote this song and I'm a man
That was raised so tenderley
By folks that taught me good from bad
Well I've seen what I've seen
Worked out what it means
And I will never fall in love again

I've lost my youth I can't hide
This fact I know so well
The places that I've seen so many times
Seem so strange everythings changed
I will never fall in love again

I will never fall in love again
This time I speak the truth
A broken heart is hard to bear
I will conclude
(I will conclude)
Since I can't have you
(I can't have you)
I will conclude
(I will conclude)
Since I can't have you
(Since I can't have you)
I'll never fall
(Fall in love)
I'll never fall
(Fall in love)
I'll never fall in love again
