Just when i think it's done
No where left to run
It always brings me back again
Another sleepless night
Another hopeless fight
I guess nobody wins the game (Oohoh 4x)

Its never enough, enough to come down 4x (Oohoh 4x)

Another promise made
Another lonely day
Another dream that starts to fade
Was it all masquerade
Just another cheap Charade
I gave you all I had to give (Oohoh 4x)
(No we cant stop, no we can't stop, no we can't stop)

Its never enough, enough to come down 4x (Oohoh 4x)

And I know, your just no good for me
But I can't, shake you off of me
And I know, you are the enemy
But I can't, shake you off of me (Oohoh 4x)

Its never enough, enough to come down 4x (Oohoh 4x)

(Guitar)

(Its never enough, enough to come down 4x)
I said it's never enough, never enough yeah, never
enough, never enough.

Oohoh 4x
