(with Nolan Gerard Funk)

[Nolan Gerard Funk:]

I used to see the world as cold, so cold.

[Tammin Sursok:]

I always felt so all alone, Ooh.

[Nolan Gerard Funk:]

How did you know you'd find me here? yeah

[Tammin Sursok:]

How did you ever see behind my tears? yeah

[BOTH]

I never realized,

[Tammin Sursok:]

How anyone could,

[BOTH]

Make everything so right

[Tammin Sursok:]

I was so sad, you brought me back

[Nolan Gerard Funk:]

OOOOOHH!

[BOTH]

You give me something to believe in, after all that we've been through, the love you give, it all comes back to you.

You give me something to believe in, you can see the real me, and here, with you, is where im meant to be!!

[Nolan Gerard Funk:]

I dont have to imagine anymore, no.

[Tammin Sursok:]

All the time it was you

[BOTH]

I was waiting for! And here we are together, side by side, and nothing seems impossible tonight!
You look inside my heart, and seem to get me from the start, we've got the chance, to make this last.

You give me something to believe in, after all that we've been through, the love you give, it all
comes back to you!

You give me something to believe in,
You can see the real me, and here, with you, is where I'm meant to be,

[Tammin Sursok:]

Lift us up, so high up, higher than high, now we realize

[ALL]

All, its takes, is love, to find us, guide us all, the way, that's the one thing you can trust

All, we need, is love, to reach out, show out,

[BOTH]

We belong here together

[ALL]

You give me something to believe in,
After all that we've been through,
The love you give, it all comes back to you.

[Nolan Gerard Funk:]

Comes back to you!

[BOTH]

You give me something to believe in, you can see the real me, and here, with you, is where I'm
meant to be!
