I remeber that day
You felt all alone
Needed someone to hold
Wanted someone to call your own
I was lonley too
Wanted someone like you
Thought in my mind you would do
But I couldn't see through what I wanted
Chorus
When did someone tell you
You had the right to use
When did someone tell you
You could pick and choose
When did someone tell you
You could hurt me When did someone tell you it's okay
Verse2
I can't believe i
Fell for you again(oh)
When all around I'm hearing
He's just using you
Oh who said that you could hurt me
Who said that you could use me
Chorus
When did someone tell you
You had the right to use
When did someone tell you
You could pick and choose
When did someone tell you
You could hurt me When did someone tell you it's okay
Bridge
When was it alright to hurt you
Who said i could use you
When was it alright to break your heart
If it wasn't alright for me
Then why was it alright for you
To just sit back and be okay
When i'm the one in all the pain
Chorus
