Perceive the sound of nocturnal soul  
The edge cuts through the very flesh  
Mind focused on profanity  
Bloodsin odium

The beauty in the beast within the body  
Animalistic life, blood sacrifice  
The desire to exalt the ego  
Egoistic need, sacrificial bleed

The sin of Onan  
The lust of the soul  
As the seeds vulgarly soar  
Upon the celestial whore

Desire for the dead  
For the virtue once fled  
Bestial deeds, the mind feeds  
Nefarious...

Vultures and predators hunting, finding  
In rapture of Dionysos' inebriation  
Hedonistic indulgence in sinister lusts  
Within the obscurity of blackness

Yet another carnality not to suppress  
No remorse thrives within the heart  
Merely one thousand more drops

In the enlarging ocean of life

You shall not be impeded by the immemorial gods  
Let your pleasure make the suffer their spiritual  
demise  
Utilise your human predestined share of craving  
And use the ancients to multiply your ecstasy

Float along with the streams of natural strains  
Don't let the immemorial subdue them  
Gather material on your immense voyage  
And create your realm to dwell in

I fulminate in my eminence  
I embrace myself and deliver my emperor  
The essence of the world is my realm  
Where nothing dies till the king's dethroned

When I behold my entities  
I rejoice their gathered strength  
I forbear to restrain idiosyncrasies  
So I will achieve all shades of my landscape...
