Dream Girl a year today  
Dream Girl you went away  
Dream Girl won't you come  
I need your love to keep me warm

### CHORUS

Only you could heal me  
Like no doctor could  
Only your own medicine  
Would do me any good  
Yet you left me to cry  
My whole life through  
Baby baby I need you

Dream Girl as tear drops fall  
Dream Girl you slight my call  
Dream Girl send a clue  
To lead my aching heart to you

Dream Girl I've searched in vain  
Dream Girl on hill and plain  
Dream Girl be my nurse  
Cause only you could end this curse

### TAG

Be my nurse)  
End this curse) Repeat and fade
