why have i been sent apart  
i just want a chance to begin  
speak up, speak up my friend  
or are we just acquaintances?  
it is a business sentiment  
or is cold more accurate?  
fifteen years in developance  
but do i deserve more than this?

nail yourself to corporate ties,  
what's independence if it makes you cold?  
was this the peak in the conversation?  
don't sweat out the end result of it  
wake up, wake up my friend  
this is not coincidence  
it is deliberately happening

nothing is against all interest  
don't say i drown, say i should come  
(against all interest)  
don't say i drown, say i should come  
(against all interest)  
guitars!

you are mistaken  
you said i would run  
i'd never run  
wake up, wake up my friend  
this is not coincidence  
it is deliberately happening

nothing is against all interest  
don't say i drown, say i should come  
(against all interest)  
don't say i drown, say i should come  
(against all interest)

guitars!
