Go... It's time
To do a quick rewind
And bring it back to get
And find another line
The juices flowing You
With injection
Found infection
Tell me lies
You were the last one
Time is moving faster
To reach inside
And grab my soul and kill it
Now you realize
What you've done
Now you realize
What you've done
Your time has come
Go...
Pick it up pick it up pick it up
Heart beats
Pains inside
You wonder why
You can't breathe
You're about to see
Your maker's eyes
That breath you took
Was terminal.
Now you realize
What you've done
What you've done
Your time has come
Now you realize
Go... Pick it up pick it up pick it up...
Oh girl
Here we go
Take my hand I understand, I understand
You got it right there
Oooh girl it's the right time I feel you're taste you're
feelin so fine
The air the color of sunsets
You tell another lie

So fine Soft white skin
Kiss your neck
The tone is all set
You're flyer than the girl I had before
Have you screamin for more
Then I kiss your bottom lip and
Close the door
And hope that nobody's home
And when you wake up I'll be long gone
