Change is gonna come on my watch,  
Yes it is my time to arrive in style.  
With grace and poise  
On my side the noise subsides finally.  
Your world is not my world.  
My world, it is my only way  
To survive the ties that bind.  
Shake it off, all the dust and the wrong  
And the quiet. It's long overdue.  
So wait right here. I need a little time  
To take all this in.  
Your world is not my world.  
My world, it is my only way  
To survive the ties that bind.  
Your words are not my words.  
My words, they are my only way  
To survive the ties that bind.  
Change is gonna come on my watch.  
Yes it is.
