First off, I'm a political boss, take down... in with my  
criminal floss,  
Yeah  
I have seen the houses niggers...  
I'ma take it further, I'm about to go live in a vault  
Yeah, living like a greedy vulture  
Cut me deep enough and find some afros... culture  
All about peace when I approach her  
If the elephant in the room is beef, consider me the  
poacher  
Yeah this is... talking to revolutionaries, is swahili or  
hulu sasa  
Always keep a bad chick in me casa  
Shouts out to my home girl...  
Nah, I'm not the dude you assume  
I've been here even before leaving my mother's room  
I've also, been her for many moves  
That's why my body's missing from my egyptian tomb  
Listen, what if... never buried her husband  
What if there was never a... for  
... and the sheriffs coming like... for carrying guns...  
Half of... we got a black president  
They say racism is dead but where's the african sunbell  
Ask a... what do faith represent  
My... is scared as it's ever been  
And since god made me black as...  
I keep... I mean that instead of...  
Rappers can unite, every race under the sun  
Hand wrapped around the mike, homie I'm the one  
East side, long beach the sound of the sirens  
Dropped out on mystery schools...  
They gonna make you...  
Maybe I'm... cause he is I and I am your highness  
Bow down in the presence of the pharaoh  
Strike a peasant in the heart with the golden bow and  
arrow  
44 in the apparel, I will blow the barrel  
Shake the dice on the floor oh I'm taking your dinero  
I used to eat pinna butter out the jar  
Now it's pinna butter guts when my door's...  
In the beverly hills... park, the boys are starve

Tough will teach you... melody, better be in top 5  
On the road at night... rallying through the yellow lights  
Rallying through the stop signs  
He on a one way, no parking lot time  
Monday to sunday,...  
I got that gucci, louie,... like a dope...  
Competition on they back like...  
And boy's missing, reminiscing the old times  
Hate... now your hoe's not  
How did you managed to make them look like...  
We ain't consider... sandwiches  
Bottles by the forklift and chronic by the cases  
Cause I laid up like the faces that jackpot in vegas  
... faces, snapshot cases  
Looking in you probably think we had a...  
That until I lost my marbles on the marble floor  
... cats can kill like oj for something small  
... the haters gonna keep acting like  
I can make it happen  
... rapping like I'm going captain money flashing top  
fashion  
... feel like I never... kiss my ass  
Get your tan from my future, you should open up my  
past  
Outside... while we smoking tripping off the glass  
... even give myself a bath  
... packs I deserve a few snapback...  
You backtracking,... how is...  
Move crowds for certain...  
Champagne and ice chains keep the circle pool  
... bitches and bad bitches,... pool
