I resemble my people told me get in there  
So after turning pro, bitches thinking it's skin care  
It's been a long time coming so don't push me  
My mama say you can be anything in this world except  
pussy  
Bad luck, this is you meeting the writer  
You're lame and that won't change Nick Cannon  
meeting Mariah  
I've been killing shit since Dexter was pulling wings of  
the butterflies  
And working at church is burning my brother fried...  
nobody  
The coop god a cold... schizophrenic  
Don't panic, it's cool and my brain is crowded  
Fighting my demons with bras knuckles and face paint  
A roof will get you to... a pussy the ace...  
They say I'm sick and deranged but know I'm from the  
hood  
The evil... it's understood  
It's not a lane in our rapping, till I'm... the police come in  
stripping  
The weapons came with the shirt

Yeah, you... gotta get the mind off  
Only soft when in came... see it raw  
... for a rich cause  
Means exposure with the 50th  
When chosen clip blow them with the mortar I'm the  
stiff  
I can divide and conquer, leave course in the split  
And I don't mean benz when I'm foreign out the whip  
Yo we call it in collision when the foreign's out the hit  
Assumption got his never minds pointing out on bricks  
Smugs, the worst riot face when I'm pump  
She want no reminiscence I got new songs for...  
Protect space in your necklace  
Acting 2 face, I'll get soon to they...  
Yeah, a fatal chest blow out of nowhere  
Heard bars lungs forgot air was sposed to go there

I'm the definition of definition  
The depth of my deposition is...

Hit the deck when I deck the bitch  
In the depths in your desperate mission  
You ex musicians, stick my ex...

In your extra lips like an...  
The excellent exhibition of eloquent  
Executive... off my region laps' relevant  
... press against my lane and I will aim at you head  
But you not a gun clapper, you a fun rapper  
Some factor out what it's happening from with some  
capture  
If crooked pave the way then I'm the one after  
I'm every ghost rider for dr dre and one rapper  
Paying homage, I vomit on track repeatedly  
Set the stage on rage and make it look easy e  
That way from my space to a new premises  
If this the... then call me the new genesis

Ah, LA leakers  
Another monumental montage  
Like a Molotov...  
All to go all against all bitch  
... with the narcissistic... been this marvelous  
I down size and... when I out line the apocalypse...  
Instead in the club,... and knock you fella...

Warrup dawg, it's the king, kiss the ring  
I'm dropping the guillotine so quick you forget to  
scream  
While you twitching I'm sipping lean  
Stronger than the mix between...  
10 more rings, we strap like that to the...  
That's for intervene when it's any scream  
Listen to me, I'm lighting up squares like smoking  
nicotine  
Lighting up squares like a video scene from billie jean  
Listen to me, fuck with the cops hollows will ring up  
... follow us, we got bottles and models and pink chucks  
And all of this means, means my bank account swallow  
the bricks drop  
And it means I walk with a mean struck, with the glock  
in the jeans tucked  
... the choppas will pop you  
Stop you drop you, spin and top you  
Hammers on deck like we repairing the sail boat  
Hammers on deck...  
There are crack bars, I call them sell drope  
... cause that was a jail quote...  
You could tell it's west coast when you smell smoke
