[Crooked I: repeat 2x]

It feels so good, when you so damn hood

[Crooked I]

Peep me out though

You niggas soft outta control, on your next video

You probably do the splits like the godfather of soul

While I'm rottweiler patrol, first I clock dollars

Then I pop collars with hoes, I got a problem with foes

Still in the club, hot boy dropping them bows

Nigga, Crooked I is the one that chicks adore

They put their lips on my dick and give me chips and more

Y'all should stop, you off the block you faking

I walk with glocks, don't talk to cops for nathin

I brought them choppers in case of al-ter-cation

I aims and pops in the face of confrontation

Speaking raw terror, I'll have your momma picking paul bearers

Broke niggas, yea, y'all error

Got to show 'em how to new age rap

But I'm still ghetto as the last swallow of Kool-Aid left

We so damn hood

[Chorus: Sisqo]

Pussy out if you would lets get good baby we so damn hood

We ride and another would, its understood that we so damn hood

Bust the script if you would, wish you could, nigga we so damn hood

Everybody feeling good like we should, baby we so damn hood

[Crooked I]

Stop the screaming, can't nobody in the area to help

If you was homophobic, nigga you'd be scared of yourself

Listen as I, start to whoop ass, why?

Would you try Crooked I, will you die like the last guy

I told you I would put holes riders man
Destiny's Child be the only "Survivors" man
Nigga I been hot, whipping the six drop
Hit you with ten shots, giving me big props
My delivery flip-flops to the tick tock
and it don't stop, giving the big glock
I'm smacking you haters up, stacking the paper
Like I signed an major contract with the Lakers
It's C-R put them with E-R double O trouble blow
Ghetto star haters split your wig
And do the thang in this game 'til I'm O.G. it's Mr. Big

[Chorus]

[Crooked I]

How many wanna know what I love? Holla, niggas who
love me
We six deep in the ridiculous humvee
Peeling 50's and dubs off, in the mall
Break your face, like Mike Tyson with his gloves off
I'm so hood and ghetto fo life
I park an five in the driveway and ready to fight
If you think I ride with metal you right
Commenting federal crimes only an federal type
It's like, every where I go, all I know fo' sho'
That this The Row, that we gets the dough
What's the R-O-W like
Slug one and you take your dime because you aint
fucking her right
Yea yea I nothin fo life, big pipes stuck in your wife
In the bed it's us and a dyke
You should never get it mixed up, big nuts, get
clutched
Thick sluts, get fucked, dick sucked, bitch what? (telli
meeee)

[Chorus] - repeat 2X
