Vers:

since I got to know you  
I've started to grow  
And I won't let you go  
you're always in my heart  
Believe me it is hard  
To walk alone  
But still I love you and it's true  
You my strength in what I do  
With my music in my life  
it's only for you!

Refrain:

In august summer night  
My tears run dry my pain was gone  
And my heart was open  
To let your love into  
Me to fall with you  
In love which is not broken

Bridge:

In every breath that I breathe  
In every heartbeat that I live  
In everything that I do  
My hearts still waiting for you  
In every moment that I live  
In every song that I wrote  
With every nice dream I had  
My life is loving you

Vers:

This is a song about a mystery  
The way I found my love  
And my life which turned around  
In an august summer night  
A dying dream became alive  
A smile that made my cry  
And a voice that turned me wild  
So you I got to know  
And my feelings began to show  
How much you mean to me and how  
much I love you so

But the happy days went by  
And all I had were a few beautiful signs  
To tell you my loves so true  
I would do anything for you  
I see you here with me  
Show me how I have to be  
But now I can't show  
that my feelings grow  
for you what should I do
