ref:

you and me we belong together

vers:

no more hate no more lies  
no more painful useless cries  
try it again don't let it be  
Jesus Christ he is no mystery  
pump pump pump it pump it up  
I tell you a lot and all good stuff  
we wanna go with God's power  
every minute every hour  
tell it everybody tell it to me  
J.C.'s alive and he will always be  
my light in the night and my destiny  
a real happy eternity  
right on right on you are right on  
he's the one who turned your heart on  
what I wanna say forever  
is that you and me we belong together

bridge:

whenever my love is gone  
help me to carry on  
I know O can't fall deeper  
than in your open arms  
and all the time you will be mine  
cause it's true that I love you  
I will forever fight  
for this one right  
to stay close to your light  
when I say your name  
it's like a burning flame  
a fire inside of me  
without you I'll never be free  
I will not stay in this world forever  
so let us be in heaven together
