(Verse 1) - Alf

I was walking down third street
Didn't know who I would meet
But u were there
I couldn't understand
You were looking straight at me
Did u think I couldn't see
That was yesterday and you're all I thought of since

(pre-chorus) - Thanh

Why did I just look away
Like I'd nothing more to say
I've been waiting for this day
And never thought you'd come my way
Here alone by myself
Had no thoughts of someone else
But the moment that I saw you I just knew
I would love u

(Chorus)

I believe you and me
We were always meant to see
That the day you walked into my life was the start of
everything
Could it be
You and me
One for all eternity
Looking back it seems so clear
Nothing could change
Coz I love you

(Breakdown)

Cos I love you baby
And I know from the moment I saw you
Yeah
I will always love you

(Verse 2) - Joel

Going crazy in my mind
Need to find you one more time
Then I can see

IF we were meant to be
Fate has brought us to this place
There is still so much to face
But today's the day
It's the start of everything

(pre-chorus)

Once again we are apart
Never knew it'd be so hard
But this distance that's between us
Makes us stranger in our hearts
Here alone all by myself
Have no thoughts of no one else
Cos the moment that I saw you I just knew
I will love you

(Chorus) *3
