I will lie to you
I will lie to you
Keep you from the truth
Manipulate what your eyes can feel
Like the other day
When I said to you
Be back by five
Make it home like two
Wouldn't you like to know what I was doing, yeah yeah
I couldn't tell you even if I tried

[Chorus]

Cause I will Lie to you, Like to you
Hide the truth, take a bullet for you
I'll be the water to fight the flames
I will like to you, lie to you
Hide the truth, take a bullet for you
Whatever it takes, I will shelter you

She came onto me
Couldn't let it be
So to you lied
Smooth a rocky ride
And the other day
When you though I cried
Told you tears of joy
But someone said goodbye
Wouldn't you like to know what I was doing, yeah yeah
I couldn't tell you even if I tried

[Chorus]

Oh I don't want to ever let you down
Oh I will drink the water before you drown
Oh I'm damned if I do
Damned if I don't lie

[Chorus]
