

## Northern "Heart Condition"

Visit "[Heart Condition](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Allright, you've got the picture perfect life,  
I'll put your body under the scope and the knife  
You know there is something missing when the bottle is  
always empty  
Is this what you really wanted? Is this what you really  
needed?  
The oxygen tank is low, here breathe through this mask  
and start to slow down, you've gotta slow down love  
cause you've got a heart condition  
Ok, cut the booze and the porn and the ugly black spots  
away,  
And maybe this time with the help of the cut they'll stay  
away,  
You know there is something missing when the bottle is  
always empty  
Is this what you really wanted? Is this what you really  
needed?  
The oxygen tank is low, here breathe through this mask  
and start to slow down, you've gotta slow down love  
cause you've got a heart condition  
Just don't let your heart go numb, here breathe through  
the barrel of this gun love, cause that's your direction,  
and if you don't slow down... well... you've got a heart  
condition
