### "Blue Shadow"

I've got a blue shadow  
Falling from a yellow flower  
In the window facing east  
The clock stopped on the hour

It's just another day  
Pretty as the last  
So how can I feel down  
When there's so much love around

Blue shadow, blue shadow  
Blue shadow, blue shadow  
Blue shadow, blue shadow  
I've got a blue shadow

Weave me a blanket out of wire  
And all the pretty scraps  
And memories  
That fall between the cracks

Preserve the happy times  
And keep the cold from me  
So I'll pull it up and lay low  
Down with my blue shadow

I've got blue shadow, blue shadow  
Blue shadow, blue shadow  
Blue shadow, blue shadow  
I've got a blue shadow

I've got a  
Blue shadow, blue shadow  
Blue shadow, blue shadow  
Blue shadow, blue shadow  
I've got a blue shadow
