Here we go!

Once again on the road my friends
for you now aiming much higher.
Face to face in the clubs again.
I hope we still have got enough fire

Took a while, but I see your smile,
and that means everything is all right.
You're the best, so fuck the rest,
'cause all we need is in this hall tonight.

Better than a dream
So many we have seen
But you're the best that's ever been!
Come on one more round
Let's freak out to the sound
May the inferno the unbound!

Hey dude, do you have the guts?
Then come up for the first stage dive!
Stay with us, all your drunken nuts,
we'll show you what's real life!

Better than a dream
So many we have seen
But you're the best that's ever been!
Come on one more round
Let's freak out to the sound
May the inferno the unbound!

Wooh! Wooh!

Better than a dream
So many we have seen
But you're the best that's ever been! (one more round!)
Come on one more round
Let's freak out to the sound
May the inferno the unbound!
