No one really wants me, cause I look like no one's child  
Is there anybody who is surely on my side  
Can't you see the real things which are chosen for to  
see  
Who is fit and who is clear to reach this completely

You can't ignore - you may be sure  
No one really tries to tell me why I'm afraid  
Is there anybody who is able on this world  
Can't you hear the voices which are coming from inside  
You ignore them, cause you are to pride

Yeah, you ignore me, cause you're to pride  
Yeah, I need someone, when there's no light  
Just by my side

Can't you feel, what I'm trying to say  
Do not join the sad side, which is growing every day  
Why aren't you able to do  
Better things, which show me what is good and what is  
true

Someone tells me that I'm going wrong (where are you  
now)  
Someone makes no difference in what I've done  
Where are you now  
Someone makes me feel sometimes so alone  
Where are you now  
No one's there, who tells me that I am strong
