

Nothing More "Gone"

Visit "[Gone](#)" on MotoLyrics.com

Never home to fulfill her needs

Is it over?

Distance feeds anxiety

Is it over?

Another town I cry and hug my knees

Is it over?

The distance grows

I want to come back home

Another day away another fight you face alone

I'm gone

I'd like to save you from the pain, a thousand miles
away

I'm gone

Mother's due for deadly news

Is it over?

Another night, medication and tubes

Is it over?

I wish I'd never seen cancer

I'd die just to find that answer

Is it over?

The distance grows

Her heartbeat's slow

I can't take this anymore

It won't be long

Keep holding strong
