

Nothing More "Welcome Home"

Visit "[Welcome Home](#)" on MotoLyrics.com

Feeding your addictions
Living in dissension
Fighting your convictions
A walking contradiction

Leaving light
Living like the leper leads
(Lacking love)
Leaving Light
Living like the leper leads
(Lacking Loyalty)

Why is your intention
To fight my intervention
You see your future's fiction
A sure incineration

Reaching out for something to hold on to
For a hand to pull you through
Through anything and everything I'm here for you

Welcome home child

Living light
Leaving how the leper lives
In a land of lies
Now you have love and loyalty
