Just give it up this time  
you're not running in circles  
it's a straight line down  
this is an overdue goodbye  
you're trapped in the moment  
and she's bleeding you dry  
do you know what it's like  
to be alive?

I've seen this before  
This is more than just a memory  
It's a new beginning  
or is it just the end?

Are you ready for part two?  
she's down for the count  
and waiting for you  
i guess you didn't know  
that love is blind  
without your eyes you won't see her  
leaving you behind  
this is love of another kind

i've seen this before  
i'm going to hell for wanting more  
do you know what it's like  
to be alive?
