Take good time to make some sense  
Did you ever think you'd be part of this?  
Trying hard to keep us down  
Making strides  
We're gaining ground  
We're wasting time on the bottom line,  
Breaking down, I'm breaking out  
The ties that bind us to the things, keep us down  
We're down and out

Let me out  
Running this race and I'm tired now  
Giving up just seems so real  
Gunning this course, and you broke the deal  
We're wasting time on the bottom line  
Breaking down, I'm breaking out  
But ties that bind us to the things, keep us down  
We're down and out
