Take me to the swamp where all are gathered for the  
Sabbat, Sabbat  
They move and move in a zombie-like trance in the  
Sabbat, Sabbat

The witch-doctor of New Orleans has abducted a girl in  
her early teens  
Them creepy little crawlers drawn to the fire in the  
Sabbat

The swampy water cast a greenish gloom unto the  
Sabbat, Sabbat  
The priestess read unidentified psalms through the  
Sabbat  
Unsheathe a knife of ebenholtz then decapitates the  
voodoo Barbie dolls  
The ritual proceeds with "Kill her! Kill her!" in the  
Sabbat, Sabbat

And then Lizzy Borden took an axe and gave her  
mummified mom another forty whacks  
And a corny brat named Malachi used a rusty machete  
for his suicide  
The monsteress from god knows where took a leap into  
the fire, lost her wooly green hair.  
A stiff one who's spent his 90's swamped with his  
hockeyhelmet hair-do he began to stomp
