I come  
From the living centre of Hell  
I will fix and I will finish  
I solve everything

I am the helping hand of Armageddon  
Inspirator behind the cleansing  
Genocide - Satan Lives!  
Genocide - Satan Lives!

I dictate what needs to be done  
To save this shithole from surviving  
Listen to me  
I am the Way

Disrupting the total equilibrium  
All balance must be banished  
Peace ripped to pieces  
All is good when all is dead

I will bring the world to sleep  
And leave it with raging Chaos  
The end and perfection  
Of the Great Work

I will not disappear  
I will only get worse  
Inexorable Evil  
Everything bows before Satan Ex Machina

I will swallow the soul of the Earth  
I will swallow the soul of the Earth  
I will swallow the soul of the Earth  
I will swallow the soul of the Earth

Darkness. Blackness. Death.  
As I help creation to get rid of itself  
Rewinding the life cycle until nothing is left  
Let's celebrate the end of existence!
