He's living next the rails.  
He can tell you things of different cars and trains.  
Now he's trying the whole day  
To SWITCH off time by causing train-delay.

Could be enough  
If only he's the pilot  
Once a day.

Could be enough  
If only he's the pilot  
Once a day.

Not a word to compensate.  
Not a sentence to describe this  
Desperate state. Not a picture to  
Compare. We step into a room of  
Opaque air.

Could be enough  
If only we are pilots  
Once a day.
