Earth bound to fire  
Fire bound to earth  
Matter and substance forlorn in mortal word  
I am immortal, I am the one  
I am the soul in reign  
I am the one enslaved beyond decay

Life turned to death  
Truth turned to lie  
Crumbled the mortal order beyond life

Life bound to death  
Truth bound to lie  
Crumbled the mortal order, man-made lie

Fire and water  
Creation and decay  
A moment of chance  
A moment of cause  
When life is torn away

Fire and water  
Symptoms without a cause  
Polar to death as polar to life  
Symptoms define the cause for life

Water bound to fire  
Fire bound to water  
Matter and substance forlorn in another

I am the wisdom, I am the cause  
I am as whole in pain  
I am the one enthroned beyond decay

Hope with me for this to suffocate now  
It is time, it is right  
It is everything  
Hope with me for this to suffocate  
Die, die, die  
And born out of fire
