Across the Miles" by Nouveaux

My friend, it's been awhile since we walked our  
separate ways  
My friend, I get misty eyed every time I remember that  
day  
You and I were close as friends could be  
And that'll never change  
You'll always mean a lot to me

(Chorus)

And across the miles I think of you  
And I say a prayer when each day's through  
That God will bless you  
And across the miles you're on my mind  
And I promise you for all of time  
That no matter how far away  
You'll be my friend

Now and then, I'm reminded of the change you made  
in me  
I was younger then, and through the years you've  
dried the tears  
That no one else could see  
I love you more than simple words could say  
And that'll never change even if you're miles away

(Chorus)

A friend loves at all times if he's true  
And from miles away I want to say I love you  
-----

Captivated by the way You love me. I hold my breath  
and pray it never ends. If it's all a dream then please  
don't wake me. I'd rather sleep forever than to leave.  
Just keep holding on to me  
~Gretchen
